

Trampoline - School model - 77 Series

230177XXX

Details

The 77 series school model trampoline is a lighter and smaller trampoline than the 99 or 101 series. It is typically used in school PE lessons where the higher bounce and standard dimensions of a club or competition trampoline are not required - if club or community use of the trampoline is expected we would recommend a club or competition trampoline would be more appropriate. Supplied with coverall frame pads

This trampoline is supplied with either fixed height or hydraulically assisted "Safelift" roller stands

Dimensions:

- Frame size 4.6m x 2.75m x 1.0m.
- Folded size 2.75m x 2.0m x 0.8m.
- Bed size 3.6m x 1.8m

Height of trampoline when on stands:

- fixed height stands - 2,000mm
- Safelift stands (high position) - 2,010mm, Safelift stands (low position) - 1,780mm

Options:

- 13mm x 13mm web bed with 100 steel springs
- 25mm x 25mm web bed with 100 steel springs
- UltraMesh bed with 100 steel springs
- Hydraulically assisted "Safelift" roller stands
- Safety coaching sides. These are extension pieces to the trampoline framework running the length of the trampoline on both sides. These, along with extra width coverall pads provide an area where a coach can stand to coach the gymnast without affecting the performance of the trampoline. Some coaches prefer to coach in this manner, whilst others prefer to coach from the side of the trampoline - the decision to specify or not to specify coaching sides is down to personal preference of your coaching staff. PLEASE NOTE: if you specify coaching sides, you cannot specify hydraulically operated Safelift roller stands as

these items are incompatible.

Our standard coverall pads are red, but we are pleased to offer blue as an alternative. If you have a special colour you require, we may be able to provide your trampoline coverall pads in that colour (we have made trampolines with white, green and black pads for customers previously).

Delivery:

We deliver trampolines to your premises using one driver. Trampolines cannot be lifted by one person so level or ramped access to your facility is required. Should level or ramped access not be available we can assist your staff to manoeuvre the trampoline into your facility if possible. If access is up or down stairs or similar then please contact us before ordering as we will need to supply the trampoline unassembled and assemble it inside your facility for which there is an additional charge. If we deliver a trampoline and have not been informed in writing in advance that on-site assembly is required, the trampoline will be left at the entrance to your facility and we will provide a quotation to disassemble and reassemble it at a later date.
