Safety mat "crash" mats for gymnastic landing activities with polyester canvas covers

The mats have a combustion modified foam core with a **BRAND NEW** soft touch durable polyester canvas cover which delivers all the benefits of a natural canvas cover with none of the downsides!

The **NEW** game-changing polyester canvas fabric covers provide an incredibly durable, premium feel fabric available in a range of attractive colours. Polyester canvas provides a warmer, softer feel than a PVC cover so is ideally suited to barefoot activities such as gymnastics. Polyester canvas has a PVC backing so is wipe clean non-stain and water-resistant. This is the greatest development in matting technology since the invention of safety matting in PE and sport some 50 years ago.

The knitted surface of the polyester canvas provides a premium, soft, but durable and rugged feel:

These mats feature zipped covers to enable easy replacement of inner or cover.

If two safety mats are to be used adjacent to each other to create a landing area it is always recommended to use an agility mat on top of the landing area to ensure feet cannot go through the gap between the mats.

Please note that safety mats must not be dragged using the handles as this can damage the covers and handles. The mats should always be picked up using the handles and carried.
