

Asymmetric / uneven bars - Deluxe model - FIG APPROVED

Details

FIG approved deluxe asymmetric / uneven bars.

As used at the highest level of gymnastics competitions in the UK including British Championships, European Championships and Commonwealth Games.

Complete with two wood laminated fibreglass core round rails.

The high bar can be used individually without alteration to cables

Supplied complete with a set of cables and chains which require four floor anchors available at additional cost.

We offer two cable systems:

- Standard
- Short cable system - for installations where space is limited so that the anchors must be located closer together

Features include:

- 22 nylon bushes and washers to reduce noise
- heavy gauge tubing to reduce flex
- integrated plunger and tightening mechanism on uprights
- rapid height adjustment mechanism
- fast cable tensioning mechanism
