Cantilever basketball goals

24HUBAS04X

Details

These Cantilever Basketball Goals are adjustable at installation stage for junior (2.6m) and senior (3.05m) heights.

- Regulation 3.05m high 100mm sq. x 3mm thick heavy duty steel uprights
- Uprights are polyester powder coated blue
- Regulation ring is bolted directly through to steel arm for added strength & polyester powder coated orange
- Designed to be concreted 914mm directly into ground, but also available with ground sockets
- Cantilever extension arm provides 120cm projection
- Complete with 4.5mm nylon nets

Available with a choice of backboards:

- Practice (1.2m x 0.9m) timber
- Practice (1.2m x 0.9m) steel

Please Note:

The posts / sockets require a minimum 1m cube of concrete.

Mechanical lifting equipment is required when assembling these goals.

Height adjustable prior to installation, the cantilever arm must not be adjusted whilst erected.

Price is for a PAIR of GOALS
