

Mild steel lockers

Details

These mild steel lockers are available in a range of powder coated colour options - with contrasting or matching doors and lock surrounds. On receipt of your order we will contact you to confirm colour selections.

The range of standard colours for carcass and door colour is available from our [Technical Information section](#)

The lockers are 1,800mm high and are available in the following options:

- 1-tier (one door per upright) - including a hat shelf and two coat hooks
- 2-tier (two equal size doors per upright) - including two coat hooks per compartment
- 3-tier (three equal size doors per upright)
- 4-tier (four equal size doors per upright)
- 5-tier (five equal size doors per upright)
- 6-tier (six equal size doors per upright)

The lockers are available in two widths:

- 300mm
- 375mm

And three depths:

- 300mm
- 375mm
- 450mm

The lockers are supplied as standard with simple CAM locks and are available with hasp locks or coin return locks at extra cost. Please add the quantity of locks you need to upgrade if you require anything other than the standard CAM lock.

The price includes delivery to your premises and installation by our technicians. This service includes taking the lockers into the correct room, setting them in place and fixing back to a suitable wall (if required).
