# Heavy duty steel rugby posts

24HURUG04X

## Details

Heavy Duty Rugby Posts

Manufactured from extra heavy duty steel tube and polyester powder coated white

Available in two heights:

- 6m out of ground
- 7m out of ground

The 6m high versions are set into fixed sockets. The 7m high versions include hinged adaptors and high tensile steel bolts to make erection of posts safer

The posts feature:

- One piece uprights
- Uprights 6m / 7m long, 76mm diameter x 3.2mm thick
- Crossbar 5.6m long, 76mm diameter x 3.2mm thick
- Height to crossbar - 3m from ground to top of crossbar
- All posts are complete with 917mm sockets which must be set into substantial concrete foundations
- Sockets complete with stabilising fins and base plates
- Stainless steel fasteners
- Top uprights are fitted with caps
