

Matrix Performance Plus Treadmill

MXPERFPTXX

Details

If you want to make your facility stand out with an exceptional running experience, nothing outperforms or outlasts the Matrix Performance Plus Treadmill.

The shock-absorbing Pure Stride Cushioning System and high-efficiency Synchronous Response Drive System make even the most intense runs feel comfortable, solid and smooth.

The unique Matrix belt and drive combination lasts for up to 100,000 miles with an absolute minimum of maintenance. Itâ€™s also quieter than traditional treadmills at most speeds, and quieter than competitive slat-belt treadmills with significantly less vibrations.

Sculpted ergonomic features like continuous multi-grip handlebars make every touchpoint more comfortable, and robust design details like cast-aluminum endcaps withstand intense environments and heavy use for years.

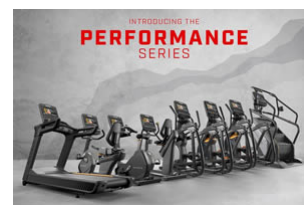

Smart features like easily removable side rails, a front-accessible component cover and built-in casters streamline maintenance and service, so your most demanding members can count on a good, hard run every time they visit your facility.

Features:

- 157 x 61 cm / 62" x 24" running surface
- 2.2 kW PMSM Synchronous Response Drive System
- 20% incline
- 25 km/h / 16 mph top speed
- 25 cm / 10.5" step-on height
- 227 kg / 500 lbs. max weight capacity

The Matrix Performance Plus Treadmill is available with a choice of five consoles:

 <p>Standard LED - easy to read simple display with large numbers</p>	 <p>Group Training LED - large easy to read LED screen with features to assist with group exercise classes</p>	 <p>Premium LED - featuring an 8,000 pixel multi-colour LED screen with WiFi connectivity</p>	 <p>Touch LCD - full colour, display including Virtual sessions</p>
