Impulse Dual Inner/Outer Thigh

Details

The Impulse PL Dual Inner/Outer Thigh is one of the eight key pieces within this high performing fixed resistance range. The Duals range has been designed with ease of use and ultimate functionality in mind. While the range only includes eight machines, each has a dual movement pattern that enables gyms to create a 16-station fixed resistance zone with half the equipment.

Each piece is designed and constructed to withstand the heavy use of busy commercial gym environments. At the same time, the design, setup and movements are all intuitive and easy to understand for users with varying levels of experience. This makes the PL range perfect for hotels, education facilities and commercial gyms alike where floor space is always at a premium.

Range Features

- Adjustable starting position to accommodate users of all sizes and to provide stability and comfort
- Highly visible yellow adjustment levers
- Sleek grey upholstery and silver frame fits in with all gym surroundings
- Dual use design offers more functionality in fewer fixed resistance stations

The Inner / Outer Thigh machine features:

- Adjustable starting position allows for a wider range of motion
- Adjustable starting position to accommodate users of all sizes and provide stability and comfort
- Handle bar on the sides provides user stabilization and support
- Shroud is applied to protect the equipment or the possible injury during operation
- An ideal machine for working both the hip adductor and abductor muscles

PLEASE NOTE: Price includes delivery, assembly and commissioning in your facility
