Shot clock brackets (PAIR)

Details

These brackets must be purchased in addition to the shot clocks if you require them to be fixed to your basketball goals or a wall.

The FIBA recommended location for shot clocks is 300mm behind and 300mm above the backboard.

If the basketball goals you wish to fix to are manufactured by a company other than Schelde or Continental we will require details of the goals that you wish us to fix to and we will contact you on receipt of your order to confirm the details we require

The price is for supply only of the brackets. If you require them fitting please add one scoreboard / shotclock installation charge to your basket. If you are purchasing a scoreboard AND shot clocks, you only need to add one installation charge
