

Mat trolley - vertical

06293A0XXX

Details

Vertical mat trolley with strong swivel castors.

Manufactured from epoxy powder coated steel with a lacquered plywood base.

Only suitable for rigid mats that can be stored vertically such as Continental's Lytamats. The storage of more flexible mats in a vertical trolley can result in permanent damage to the mats

Available in two sizes:

- Small - 1.2m x 0.9m x 0.33m (4' x 3' x 1')
- Large - 1.8m x 1.2m x 0.33m (6' x 4' x 1')

How many mats can these trolleys store? Based on the various thicknesses of Continental's Lytamats, we recommend maximum capacities are:

- 22mm thick Lytamats = 14 mat capacity
- 32mm thick Lytamats = 10 mat capacity
- 40mm thick Lytamats = 8 mat capacity
- 50mm thick Lytamats = 7 mat capacity
- 60mm thick Lytamats = 5 mat capacity

If you require a greater capacity from your mat trolley we suggest our horizontal mat trolleys which can hold significantly more mats.

SKU	Options	Available Colours
06293A02AA	0.9m x 1.2m x 0.33m	N/A
06293A01AA	1.8m x 1.2m x 0.33m	N/A
