

International Tatami judo mats

04303XXXXX

Details

Traditional high density heavyweight Tatami judo mats, available in 40mm and 50mm thicknesses.

The mats feature a vinyl surface and are constructed using a special heavy density fire retardant foam. The vinyl cover has a traditional rice-grain "Tatami" embossed surface pattern. An optional frame is available to hold a group of mats together to create a competition area.

Traditionally the combat area is green and the safety surround is red, but increasingly facilities choose a yellow combat area with a blue safety surround. We offer both combinations - and other colours subject to a surcharge for a minimum order quantity per colour - please contact us for details.

These mats are typically purchased in quantities to create different size combat areas as follows:

Matting area	Description	Quantity of 2m x 1m mats in green or yellow	Quantity of 2m x 1m mats in red or blue
8m x 8m	8m ² combat area	32	0
10m x 10m	8m ² combat area with 1m safety surround	32	18
12m x 12m	8m ² combat area with 2m safety surround	32	40
14m x 14m	Competition standard 8m ² combat area with 3m safety surround	32	66

The mats are normally provided in 2m x 1m dimensions but are available in 1m x 1m dimensions - simply double the quantities in the above table if you prefer 1m x 1m mats. Both sizes of mat are available in 40mm

and 50mm thicknesses.Â

SKU	Options	Available Colours
04303A01VB	2m x 1m x 40mm	
04303A01VY	2m x 1m x 40mm
