Netball post padding - competition - indoor

08426D01AA

Details

Post padding to suit one pair of Continental Competition Netball Posts.

Each pad comprises:

- A shaped 50mm thick foam pad that fits snuggly around the post
- A PVC wrap-around withÂ VELCROÂ® Fastener to attach the wraparound to the padded post

The foam pad is supplied in two sections - the top section can be removed to reduce the ring height from 3.05m to 2.6m for junior play The padding is designed to be left permanently on the posts with the top section removed when the ring height is lowered.

If you purchase plain PVC pads, the wraparounds are supplied in two sections to enable the post to be padded at either senior or junior heights. If you purchase digitally printed wraparounds, they are supplied in single sections for senior height only. Therefore if you wish to use the padding at junior height we recommend purchasing single colour wraparounds.

This padding is available as an optional extra to Continental Competition netball posts but is mandatory to comply with the requirements of England Netball

We manufacture the padding in red PVC as standard but it is available in any of our wide range of PVC colours.

Alternatively we can provide the padding with a PVC cover fully digitally printed with any images you require such as logos, straplines, graphics. We do not provide design work so you will need to submit artwork in our specified format: A vector graphics format (e.g. pdf or eps) in a ratio of 2920mm x 615mm. If you order digitally printed post pads we will contact you to arrange the artwork.

Price is for a pair of pads to suit TWO (one pair of) posts

Please note that if you purchase a pair of complete pads, you can also purchase additional wraparounds (the coloured or digitally printed PVC covers that attach usingÂ VELCROÂ® Fasteners to attach around the padding. For example you might have a number of sponsors so you can have several wraparounds depending

on who is sponsoring each match, or you may want to save your digitally printed cover for competitions and use a coloured wraparound for training. Please select the type of cover you require when ordering:

- Complete - one pair of foam pads and one pair of PVC wraparounds
- Wraparound only - one additional pair of PVC wraparounds to be used with existing foam padding (only works with Continental Sports padding)

PLEASE NOTE: As this padding comprises a foam pad with a separate PVC wraparound it is not a sealed unit and is not therefore suitable for use outdoors (or if used outdoors it must be removed after use and not used in wet conditions). We also offer a version fully enclosed in PVC for use indoors or outdoors.
