SPIETH - Springboard "Moscow 8"

Details

The SPIETH "Moscow 8" Springboard from Spieth for competition use. FIG Approved "HARD" springboard.

FIG Approved

This FIG approved Springboard features a carbon fibre sandwich top and eight chrome silicon pyramid springs.

It includes removable transport castors to enable the board to be moved to and from storage easily.

The board results in very little energy loss with an equal rebound over the entire surface.

This FIG approved competition springboard is certified as a "Hard" board which is designed for forward vaults for faster / heavier gymnasts.

Designed for top gymnasts weighing 50-100 kg
