Quick adjust portable basketball goal

Details

The ref. 512 Quick Adjust portable basketball unit is an extremely durable unit offering three height settings making it ideal for home and schools.

The unit is very simple to adjust, you can release an automatic catch behind the backboard and move the board and ring to one of the three height settings of your choice.

The unit features:

- Quick Adjust system allows height adjustment from 8' to 10' (2.44 to 3.05m)
- Durable fan shaped polypropylene backboard measuring: 44" x 28" (112 x 71cm)
- 18" Steel ring (34cm) compatible with flex ring
- Heavy duty pole for strength and durability
- Wheels for easy movement
- Approved by England Basketball and Basketball Scotland

Please note that the unit requires ballast of 190kg dry sand or 110 litres of water which is NOT PROVIDED.

The above price is for ONE GOAL ONLY (not a pair)

These goals can be used indoors or outdoors, but are not designed to be left permanently outdoors.
