

Junior Gym Component - Upright (outer frame)

Details

These uprights attach securely to the base rails and provide the height adjustable location for short or long inners. The price is for one upright and two uprights are necessary to support inners to suit a rail or bungee.

Continental's range of Junior Gym equipment is modular so you can buy a basic element and then add components to enable you to build the different elements in the range. To enable you to select any additional components the table below shows the number of each component in each element:

	Double rebounder	Single rebounder	Uneven bars	High bar	Parallel bars	Ring-frame
Base rails	2	2	2	2	2	2
Upright outer frame	2	1	2	1	2	1
Short inner upright	4	2	2		4	
Long inner upright			2	2		
Ringframe inner upright (no ring or strap)						2
Veneered fibreglass rail			2	1	2	
Bungee cables with fittings	2	1				

Padded bungee cover	2	1				
Reboulder rail (solid timber) with brackets	1	1				
Ring and strap						2
