

Large cube

24CUS5001

Details

The Cube is the heart of our innovative modular parkour system. With its up to two meters height it is the jumping-off point for any exciting training spaces.

Features:

- more than 100 plug-in connections for bars and beams
- weatherproofed hi-grip multiplex birch plywood
- sidebars made of solid wood
- glue-laminated and screwed corner joints
- special lamination for a better grip
- safety and stability due to a non-slip underfloor plate
- stable integral, retractable moving device

The cube is available in two variants:

- Standard
- With door

The "with door" version has a removable panel on one side of the cube to enable you to put in additional weights (Item 24CUS2059 –please add to your order), in order to increase stability of the Cube e.g. for professional Parkour shows

The cube is now available with cool "Urban" digitally printed graphics as well as the standard hi-grip plain. These cubes have two faces digitally printed with "Urban" graffiti to provide an exciting, funky look to the Freestyle area of your gym. Urban cubes all come in the "with door" variant and the top is plain hi-grip. If you order with graphics, we will contact you with details of the choices of images prior to manufacture.

PLEASE NOTE: The large cube requires a minimum access door / storeroom door height of 2,070mm

SKU	Options	Available Colours
24CUS5001-1	NO door	N/A
