

Socketed korfball post with basket

24SS16521XX

Details

Socketed competition korfball post

The post is made from anodised aluminium (76 mm diameter) with internal reinforcement for attachment of the plastic basket

Available in two heights:

- Regulation - 350cm
- Junior - 300cm

Features:

- Virtually wobble-free design when used with a conical socket
- Complete with IKF competition korfball basket
- Incorporates an anti-rotation pin for correct alignment

Sold as ONE POST only - for a pair of posts please purchase a quantity of two.

These posts require special conical deep sockets to be installed in the floor with removable access covers in the sports floor. The sockets are available at additional cost - please contact us for details regarding pricing and installation requirements.
