

Work Ticket No.

**TO BE COMPLETED PRIOR TO INSTALLATION OF ANY ITEM REQUIRING DRILLING INTO THE FLOOR AND OR WALL SUCH AS A 3-GATE CLIMBING FRAME OR WALL FIXED LADDER ETC.**

Dear customer

Installation of the equipment that you have asked us to fit requires us to drill into the floor and / or wall. We therefore need you to confirm that the area you have instructed us to fit the equipment is clear of anything that could be damaged by drilling, such as:

- Water pipes (including specifically underfloor heating pipes)
- Electrical cables
- Any other ducting (such as air conditioning ducts or built-in vacuum cleaner ducts)
- Any other concealed item that may be damaged by drilling

Therefore we require you to complete the following before we can commence work:

Please initial one box:

Having made all appropriate enquiries, we confirm that we do not have any of the above items in the area that we have instructed you to install the equipment and you are therefore free to carry on your work as requested

- OR -

We have items that may be damaged in the vicinity of where we have instructed you to fit the equipment but we have made appropriate arrangements to ensure the specific area you will be drilling is free from any such items.

**Please note:** modern underfloor heating pipes are made of flexible plastic piping and can move. Therefore please do not rely solely on the initial location of such pipes to determine a safe location for us to drill

IF YOU TICK THE SECOND BOX, YOU MUST NOW COMPLETE THE DISCLAIMER LETTER PROVIDED BY CONTINENTAL SPORTS LIMITED BEFORE INSTALLATION MAY COMMENCE. PLEASE NOTE THAT IF YOU TICK THE SECOND BOX AND ARE UNABLE TO AGREE TO THE DISCLAIMER LETTER, WE WILL NOT INSTALL YOUR EQUIPMENT AND AN ABORTIVE VISIT CHARGE WILL BE PAYABLE.
